

Question ... What is a Perio-Crown™?

1. Encourages healthy tissues.
2. Proven to reduce harmful plaque bacteria that cause periodontal disease.
3. Predictable long term gingival protection.

Answer ... CAPTEK™ is the Perio-Crown™

Itzhak Shoher, DMD, MS
Co-Inventor of Captek™

Doctors often choose Captek™ for the esthetic vitality, strength, or to minimize dark lines at the crown margin. Many others cite the potential health benefits as the most compelling reason. The nice part is, with the Captek™ technology, one can achieve predictable esthetics while still actively supporting long term oral health. Crowns and bridges fabricated with Captek™ are proven to reduce harmful bacteria surrounding restored sites*; the same bacteria associated with periodontal infections that were found to be closely associated with cardiovascular diseases.**, ***
